

Energy Transfer was formed in 1996 with about 200 miles of natural gas pipelines and 20 employees. Since then, we have grown to be one of the largest and most diversified midstream companies in North America with approximately 140,000 miles of pipelines and associated facilities in 44 states. We also have international offices in Panama and Beijing.

**5x**

Our approximately 140,000 miles of pipelines could circle the Earth more than five times.

Our exports have reached

80**COUNTRIES &
TERRITORIES****44 STATES**

We own and operate approximately 140,000 miles of pipelines and associated infrastructure in the U.S., with a strategic footprint in all of the major U.S. production basins.

Purchasing

28 MW

of solar power from Maplewood 2 Solar Project in West Texas.

and

120 MW

of solar power from Eiffel Solar Project in Northeast Texas.
